

Original Floating Action by Eskesen ... the world's best souvenir!

NEW DISPLAY

A couple of years ago we introduced a new souvenir display box which has become very popular and has increased retail sales considerably in many retail shops.

We are now proud to present a new and updated version of the box, which has been improved in several areas.

- Reduced size for optimized space management
- Square box, which can be stacked on the shelf for optimized storage
- Slightly changed graphics for improved visual attraction
- The new box retains the dominant features of the old box such as 48 pens packed in upright position with floating scene visible
- Easy to open and prepare for on-counter display
- All orders shipped after 28/09/2009 will be supplied in the new display box
